

Healthy Food and Drink Choices Policy

New: 2012

Due for Review:

2017

RATIONALE

At Matthew Gibney Catholic Primary School, we believe the human person, though made of body and soul, is a unity. The human body shares in the dignity of the image of God: it is a human body precisely because it is animated by a spiritual soul, and it is the whole human person that is intended to become, in the body of Christ, a temple of the Spirit...

Students in Catholic schools are educated to understand that they are spiritual beings in relationship with God who live in physical bodies that require care. Matthew Gibney Catholic Primary School encourages students to make healthy choices for their lives including healthy food choices.

PRINCIPLES

- A healthy and nutritious food and drink policy makes a positive statement to students, staff members, parents and the broader community about the value placed on human life.
- It is important that parents, staff members and students work together to support a whole-school approach to building a school culture in which students actively choose nutritious food and a healthy lifestyle.
- School canteens should serve the school community with nutritional food at affordable prices.
- Healthy canteen choices complement the nutrition knowledge taught in the classroom and promote a school culture of healthy eating that can extend into the wider family and community.
- The school curriculum is the ideal place for students to learn about nutrition and making healthy food choices.
- Matthew Gibney Catholic Primary School's canteen complies with the Catholic Education Commission of Western Australia Policy statement 2-C14 'Occupational Safety and Health in Schools' in order to provide safe handling, preparation and serving of food.

PROCEDURES

- Matthew Gibney Catholic Primary School's canteen will promote a wider range of healthy and nutritious food and drinks and follow the minimum standard required to ensure that menus follow the 60% 'green' and 40% 'amber' food and drinks guidelines according to the traffic light system in Appendix C of the Department of Education and Training Healthy Food and Drink Policy.
- At our school, other food and drink choices shall promote a wide range of healthy and nutritious food and drink.
- The Star Choice Buyers' Guide, which is a register of all products that meet minimum nutrient criteria for the food type, is used as a resource for planning menus and making decisions about serving sizes.
